VF 108-11

HEADQUARTERS 2ND CORPS AREA
GOVERNOR'S ISLAND, N. Y.

Dear Mr. Byrne,

The enclosed may be of interest to you. My time is very limited for my hobbies and I was somewhat handicapped by the errors and mistakes that occur in the "Lords Prayer" message but, at least, I have made a start. I cannot place the $, the figures and the less common letters on the drawer because they do not appear in the text of the Prayer. However, I may hit on a way to place them. And meantime any new characters coming up can be placed through

the completion, (admittedly tentative) of the follower.

I probably can do little with this until the next week end and request you allow me to keep the machine until then. I am uncovering some curious things in connection with it.

Yours.

Hitt
